Acquired professional proficiency in web development during internships, specializing in React, HTML, CSS, and JavaScript

AWARDS

Academic Excellence Award 2024 @ Jeppiaar Institute of Technology, Chennai.

OTHER INTERESTS

- Exploring Buisness Ideas,
 - Watching Movies,
 - Listening To Music.
-

PROJECTS

Mini Ecommerce, 2 Weeks

Developed a mini e-commerce platform leveraging a full-stack approach, utilizing HTML, CSS, JavaScript, React, and Node.js. The project seamlessly integrates front-end functionalities for user interaction and product display with a robust backend system for managing inventory, user interactions, and order processing. Through this project, demonstrated proficiency in building dynamic web applications, handling data management, and implementing responsive design principles to deliver an engaging user experience.

User Details Management -CRUD using React, 2

Days

Crafted a comprehensive User Details Management system employing React, enabling seamless Create, Read, Update, and Delete (CRUD) operations. This project showcases proficiency in building dynamic user interfaces, implementing state management, and integrating RESTful APIs for backend communication. Through meticulous design and implementation, the system ensures efficient handling of user data with intuitive user interaction, providing a robust solution for managing user details effectively.

User Interface, 5 Days

Engineered a sleek User Interface project, prioritizing user-friendly design and functionality. Utilizing HTML5, CSS3, and JavaScript, the project showcases expertise in crafting responsive layouts and interactive features. With a keen eye for detail and usability, the interface offers seamless navigation and engagement, catering to diverse user preferences and devices.
